

How to fold a Crane!!

A CRANE The crane, symbol of longevity and tenacity, is the most popular of all "Origures in Japan. In step 3 lift the topmost leaf of the center and fold, so that point A coincides with B. Repeat this on the other side. In step 8 pull gently at the place marked with an arrow, and in 9 fold both sides of the upper part inward. Repeat this on the reverse side to form the shape shown in 10 Do step 11 on both sides. The outside flaps in 13 are the crane's wings. Fold them outward, and blow air into the hole on the bottom to fatten ten the crane.
