

Model: KP-53XBR45, KP-61XBR48

No. 388

Subject: Fuse resistor not listed

Date: January 20, 1999

Symptom:
(1311)

No picture CRT filament is not lit. Fuse resistor R-866 is open. This resistor is not listed in the Service Manual parts list or show in the schematic.

Solution:

The E board was changed starting with Suffix -14. When fuse resistor R866 and R865 was added. Please see the schematic and Ref. chart below for the proper Part Number and schematic diagram.

This resistor is located between T-803/pin 17 and CN-802/pin 1. R-865 is in series with this fuse resistor.

Ref.	Description	Part Number
R865	1.2 ohm 2 watt resistor	1-216-370-11
R866	3.15a Micro Fuse resistor	1-532-781-11
